

DISPLAY COMPONENTS

MESSAGES FOR EVERY OCCASION

Info holders play a key role in delivering product or promotional information directly at the point of sale.

The Info holders can be stand alone models, mounted together or mounted on shelves, data-strips or wire baskets. They are manufactured in a variety of materials to suit specific needs.

« Information directly at the point of sale - a key role! »

Sometimes bigger is better! Consumers are assaulted with information in their everyday shopping life.

A tidy display with clear information focus attention on the message you want to bring across and helps the consumer to identify key features of the product he/she is considering.

A COMPETITIVE RANGE

Our solutions range from flat-packed, easy-to-use solutions for one-time promotions to durable solutions for permanent displays. Through our in-house facilities both can be offered with custom print.

Die-cut and heat-bent models are designed for promotions, seasonal campaigns, primary or secondary placement for new products. Sizes can be customized to the products dimensions.

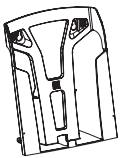

The solid injection-moulded series are ideally suited for permanent brochure dispensers; while glossy, high quality acrylic displays are perfect information holders for restaurants, banks, travel agencies and offices.

ADAPTABLE LITERATURE HOLDERS

ADDWISER A4

ⓑ

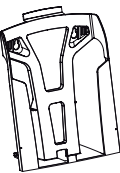

Stand alone
brochure holder

A new revolutionary brochure holder with with outstanding competitive price level.
Colour: Transparent, transparent blue, transparent orange. Other colours on offer. Compact packing. Number per box: 30
